Write the number next to each row.

Color the row with the most.

_____						
_____						
_____						

How many triangles are on the graph? \_\_\_\_\_ triangles

Parent: Play a sorting game with your child. Collect 10–15 objects. Decide on a sorting rule. For example, the objects could be sorted into a group of blue objects and a group of not blue objects. Ask your child to identify how the objects are sorted.

Initial if completed. \_\_\_\_\_
